A GREAT PROVINCIAL CHARITY

Last Year 499 Patients from 232

Places Outside of Toronto.

SOME FAMILIAR FACES IN OUR WARDS

YOUR DOLLAR WILL HELP, YOUR DOLLAR WILL HEAL
THERE'S A GREAT NEED, PLEASE READ THIS APPEAL.

PLEASE READ THE HOSPITAL'S WAR STORY ON PAGE 5, AND "LEST WE FORGET"
ON PAGE 11 OF THE TRUSTEES' REPORT

EVERY DOLLAR IS A LINK OF KINDNESS IN THE CHAIN OF MERCY THAT JOINS THE MONEY IN YOUR POCKET TO THE MISERIES OF SOME CHILD'S LIFE, SOME MOTHER'S HEART :-

CELEBRATING ST. PATRICK'S DAY
Nurses giving the Medical Ward girls a treat.

A BROKEN LEG

Accident—ball game at school—a compound fracture—after operation—a daily dressing.

CHRISTMAS DAY.

Santa-Claus giving little girl a stocking full of candy. This is the thirty-third Xmas for Santy.

AN ARMY OF KNITTERS

All girls eager to knit. Last year 150 pairs of socks, 50 scarfs and 50 wristlets were knitted for the soldiers. Best record—a girl of 12—eight pairs of socks.

WAR WOULD BRING ITS WOES NEARER TO THE HOMES OF CANADA IF THE DEMANDS OF WAR YEAR ARE TO BE YOUR REASON FOR REFUSING THE MONEY—YOUR MONEY—THAT ENABLES THE HOSPITAL TO ENTER THESE HOMES WITH COMFORT FOR MANY A GRIEVING MOTHER AND HEALTH FOR MANY A SUFFERING CHILD.

SIX WEEKS OLD
One of 1,164 babies in the Baby Ward last year.

MOTHER AND BABY

Watching him through glass window of cubicle. Each cubicle is 8 x 13—a perfect Hospital unit.

BADLY BURNT

Boiling soup on gas stove fell over and scalded the lad—and the Hospital sent him home cured. There were 38 cases of burns treated last year.

MOTHER'S VISIT

Sometimes 175 parents visit on Sunday afternoons.

DISEASE OF SPINE

In Pavilion at Island—a lovely outlook. The sun streams in here all day long.

SUN TREATMENT

Baby getting well and fat. Every ward in the Hospital has a sun room and balcony, where patients sleep day and night. The improvement by sun treatment is wonderful.

THIS CALL SHOULD BE A SIGHT DRAFT ON YOUR PURSE—AND OUGHT TO BE PAID CHEERFULLY ON PRESENTATION

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

THIS CHARITY WORKS ALL THE TIME—THE DOORS OF THE HOSPITAL ARE NEVER CLOSED BY DAY OR NIGHT

THE BABY WARD SERVICE.

Last year's Record, 1,164 babies, youngest infant admitted on September 10th was only 10 minutes old. Each cubicle is 8 x 13, with running water, hot and cold. There are 40 in the baby wing—only kind in Canada.

CORRIDOR OF CUBICLE FLOOR

Nurses have access to the different cubicles through individual doors opening on to the corridor.

PREMATURE BABIES—TINY TOTS

One weighed 2 lbs. 5 ozs., now 4 lbs. 11 ozs.; other went home with happy mother.

THE HOSPITAL OPENS THE GATES OF ITS MERCY TO THE SICK LITTLE ONES OF THE PROVINCE OF ONTARIO.

BABY DIET KITCHEN

Many a mother's heart has been made glad and many a life saved by timely aid in baby's feedings.

A SUNNY BALCONY.

Nursery maids and group of infants—some pneumonia cases, some intestinal troubles, some malnutrition.

... EVERY BED IS A BELGIUM ...
*in which The Hospital for Sick Children
is fighting to drive back disease, Pain and
Death, the invaders of many a little life.*

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

THE HOSPITAL FOR SICK CHILDREN

THE STORY OF ITS FORTY YEARS' WAR FOR THE LIVES OF LITTLE CHILDREN.

The Campaign of the Armies of Life and Death to Save the Child Life of Ontario.

The Result of Its Work for the Suffering Boys and Girls of This Homeland Province.

WAR BULLETINS that mention defeats but no retreats, WAR BULLETINS that report victories but no defeats—WAR BULLETINS is the name most appropriate to the whole series of annual reports of the Hospital for Sick Children, College street, Toronto, and the Lakeside Home for Little Children.

The initial WAR BULLETIN, or report, issued in 1875, covered the struggles and triumphs of the year's campaign in the first centre of the Hospital's war. The first Hospital with its two rooms, its staff of five physicians, a matron and one nurse, and its forty-four in-patients, was the scene of a mere skirmish compared to the hourly, daily, weekly, monthly, yearly battle for the lives of little children, the unceasing battle that has to be fought to a triumphant issue in the great mother Hospital in College street.

These lines introduce a report that covers the months in which the Hospital completes the noble history of a forty years' war for the lives of little children.

The months of 1915 make up the most trying time of all the years recorded in the annals of the Hospital's long war.

Ontario has many homes that were emptied of British reservists who were called to the colors, and of other fathers who enlisted for active service with the units of the Canadian Expeditionary Force. These homes are scattered all over Ontario. The mercies of the Hospital are wide as the province. The ministrations of the Hospital are not restricted to children in the city of Toronto. The help of the Hospital is at the service of every suffering child in Ontario.

The claims upon the Hospital for Sick Children were increased by the withdrawal of fathers and bread-winners from so many Ontario homes in 1915. The Hospital needed and still needs money to care for the sick children of every man who is at the front. The war called upon the Hospital for special help to soldiers' children at a time when friends of the Hospital were being called upon for contributions to funds raised for the service of the soldiers.

Contributions came from pockets full of coined kindness for little children. That kindness had always proved to be the strong right arm of the Hospital's mercy. The Hospital realized in its experience of 1915 that the new duty of contributing to war collections did not make the people altogether forget the old duty of remembering the sick, the crippled, the suffering little children. If the money that is placed at the service of Canada's soldiers were withdrawn from the service of Ontario's children, suffering and death would come to many of these very soldiers' children. Ontario's own boys and girls cannot be left to suffer and perish on the battlefield where the Hospital fights against disease and death any more than Britain's own soldiers can be left to suffer and perish on the battlefields where Britain and her allies fight against tyranny and murder.

Your contributions came to the help of 2,838 children, by coming to the help of the Hospital, in 1915. The Hospital has no friend but you, and thousands of children have no friend but the Hospital. The bombs of neglect to help the Hospital, the shells of indifference to the suffering of Ontario's own little children, would carry misery and death to many a home in this province as truly as Zeppelin bombs have dropped murder into English homes or baby-killing gunners of the German navy hurled murder into the cots of little children at Scarboro and Hartlepool.

FORTY YEARS' RECORD, 1875-1915.

The work of the Hospital for Sick Children has grown at a rate unparalleled in the history of any similar institution in the world.

In the 40 years of its existence, the Hospital has treated 26,108 children as in-patients, 231,768 as out-patients; a grand total of 257,876 in and out-patients; or an average of 6,447 per year.

Of in-patients admitted, 19,397 were from Toronto, and 6,711 from other parts of the Province. 12,225 or 46½ per cent., were cured; 7,875 or 30 per cent., improved; 1,893 or 7 per cent., unimproved; 2,615 or 10 per cent., died.

THE PAST TWELVE MONTHS' WORK, 1914-15.

From 1st of October, 1914, to 30th of September, 1915, the total number of in-patients admitted was 2,838, an increase of 586 over 1914. Of these 1,192 were girls and 1,646 boys; 1,771 were medical cases, and 1,067 surgical.

In the Out-Patient Department, 40,567 were treated; 20,203 girls and 20,364 boys; an increase of 8,597 over 1914.

The largest number of in-patients treated in any one day was 235; the smallest number was 146; and daily average 181.

RESULTS OF TREATMENT.

Last year of the 2,838 patients admitted, 1,236 or 43 per cent., were discharged cured; 757 or 26 per cent., improved; 175 or 6 per cent., unimproved; 463 or 17 per cent., died; and 207 or 8 per cent., remained in Hospital.

Of the 463 deaths, 197 were girls and 266 boys; 46 died within 2 hours of admission; 75 within 8 hours; 149 within 7 days; 61 within 2 weeks, and 58 within 4 weeks; so that 84 per cent. of the 463 were beyond hope on the date of admission.

The death rate includes, as always, a number of children admitted too late for human aid to prolong life; and last year chiefly to the greater number of infants admitted and the large number of intestinal and malnutrition cases.

Of the 40,567 out-patients, the final results are not reported by parents to the Department, and it is impossible to give the actual results of treatment, but the staff claims that about 32,453 or 80 per cent. of those who received treatment were cured, and at least 10 per cent. improved.

NATIVITY AND RELIGION OF IN-PATIENTS.

Of last year's in-patients, 1,392 or 49 p.c. were from Canada; 670 or 23½ p.c. from England; 69 or 2½ p.c. from Ireland; 129 or 4½ p.c. from Scotland; 16 or ½ p.c. from the U.S.; and the remainder, 562 or 20 p.c. from foreign countries.

Of 2,838 in-patients, the religious denominations were as follows:—2,056 or 72 p.c. Protestants; 350 or 12½ p.c. Roman Catholics; and 432 or 15½ p.c. other religions.

AGE AND SEX OF PATIENTS.

Of the 2,838 in-patients, 845 were under one year; 319 one to two; 177 two to three; 167 three to four; 162 four to five; 142 five to six; 157 six to seven; 165 seven to eight; 131 eight to nine; 117 nine to ten; 114 ten to eleven; 105 eleven to twelve; 97 twelve to thirteen; 77 thirteen to fourteen; 63 fourteen to fifteen.

In 1915 of the 2,838 in-patients, 1,192 were girls and 1,646 boys. In 1914 of the 2,252 in-patients, 972 were girls and 1,280 boys.

In 1915 of the 40,567 out-patients treated, 20,203 were girls and 20,364 boys. In 1914 of the 31,970 out-patients treated, 15,938 were girls and 16,032 boys.

DAYS' STAY IN HOSPITAL OF EACH PATIENT.

Last year the total days' Hospital care of the 2,838 in-patients was 63,340. In 1914 for the 2,252 in-patients the days were 54,879.

The average days' stay of each patient for 1915 was $22\frac{1}{3}$. In 1914 the average was $24\frac{1}{2}$.

This average days' stay is found by dividing the total number of in-patients, 2,838, into the total days' stay, 63,340, of all patients in the Hospital for the year.

THE COST PER PATIENT PER DAY.

The cost per patient per day is arrived at by adding all the days that each patient has been in the Hospital from October the 1st, 1914, until September the 30th, 1915, and then dividing the days into the total expenditure.

Last year, 1915, the aggregate number of days' treatment of the 2,838 patients in the Hospital was 63,340, an average of $22\frac{1}{3}$ days per patient, at a total cost of \$143,444.10; or the cost per patient per day was $\$2.26\frac{1}{2}$, or $\$50.54\frac{1}{2}$ for the $22\frac{1}{3}$ days' stay of each patient. In 1914 the cost per patient per day was $\$2.34$, or $\$56.95$ for the $24\frac{1}{2}$ days' stay of each patient.

The average daily cost of maintaining a patient has considerably increased in the past twenty years. In 1895 it was $\$0.76\frac{1}{4}$; in 1905, $\$1.14\frac{1}{2}$; in 1915, $\$2.26\frac{1}{2}$. The increase is due, largely, to the increased volume of work done, to the improvement in service, and to that common cause of all domestic calculations nowadays, the higher cost of living.

SURGICAL STATISTICS.

The total number of surgical operations for the past year was 2,771; in the In-Patient Department, 635; and in the Out-Patient Department, 2,136; besides many minor operations that were not recorded. In 1914 the total number of operations performed was 2,236; in-patients, 682; out-patients, 1,554.

OUT-PATIENT DEPARTMENT AND FREE DISPENSARY.

Last year there was a total attendance of 40,567, of whom 20,203 were girls and 20,364 boys. The largest number of out-patients treated in any one day was 208; the smallest number, 81; the daily average, 133.

Of the 40,567 out-patients treated, there were 12,347 medical cases; 12,126 surgical; 3,228 ophthalmic or eye cases; 6,619 ear, nose and throat; 1,501 orthopedic; 3,086 tubercular; 466 attended the whooping-cough clinic and 1,194 the well babies' clinic.

The Dispensary is a busy corner—there were 29,955 prescriptions filled for both in-patients and out-patients, besides the daily orders for solutions, chemicals and ward requisites for the Hospital and the Out-Patient Department, which numbered 11,980.

A comparison with the previous year shows the following increases: 8,597 in the total attendance, 30 in the daily average, and 2,040 in Dispensary prescriptions and orders.

A PROVINCE-WIDE SERVICE.

The Hospital opens its doors to all little sick children in the city and province without distinction as to creed, sex or nationality. Last year 499 patients were admitted from 232 places outside the city of Toronto. In 1914 there were 394 from 210 places. The fathers and mothers of Ontario are now recognizing the fact that there is in Toronto an institution which serves all Ontario—with a perfect equipment for the treatment of every disease known to the child life.

THE ORTHOPEDIC SERVICE.

The Orthopedic Department is the branch of practical surgery that deals with the correction of bodily deformities.

Of the 2,838 in-patients who received treatment in the Hospital last year, 264 were treated for deformities as follows:—10 bow-legs; 57 club feet; 2 knock-knees; 21 Pott's disease of the spine; 10 lateral curvature of the spine; 17 dislocations of hip; 42 tubercular disease of knee, hip, ankle, wrist and elbow; 76 infantile paralysis; 8 wry neck, and 21 miscellaneous. Of the 40,567 out-patients treated last year, 1,501 were orthopedic cases.

THE GYMNASIUM.

In connection with the Training School for Nurses, a Gymnasium is fitted up with all modern appliances on the fifth floor of the Residence, where a course of gymnastic exercises and instruction is given to the two classes of probationers entering the School yearly.

Since the beginning of the year, for the corrective treatment of chest and shoulder deformities, lateral curvature of the spine, flat and weak feet, wry neck, paralysis and various faulty postures, the latest apparatus and appliances have been imported, and individual exercises are given daily in another Gymnasium on the ground floor of the New Wing.

In 1915, a daily average of 8 children attended the Gymnasium; including in, out and private patients, or a total number of 2,440 corrective treatments were given.

MASSAGE.

An expert Masseuse gives two lessons weekly to all senior nurses in the Training School and daily massage to all children assigned to her in the wards of the Hospital, suffering from various diseases.

During the year 200 patients received massage, 107 in-patients and 93 out-patients; some of these being treated almost daily, making a total number of 3,778 treatments.

X-RAY AND PHOTOGRAPHY.

Without an X-Ray Department no Hospital is to-day complete, for it is "an absolute necessity" to the surgeon in the diagnosis of fractures, dislocations, bone diseases, chest and lung conditions; and also indispensable in a Children's Hospital for the location of foreign bodies. A valuable addition to this department this year was a trochoscope and fluoroscopic table, etc., presented by Sir E. B. Osler.

Last year's records show:—3,128 skiagraphs taken; 180 X-Ray treatments for different diseases and 650 fluoroscopic examinations. The radiographs which included in-patients, out-patients and private patients were as follows:—532 dislocations and fractures; 134 hip cases; 266 bone diseases; 720 chest and lung conditions; 90 foreign bodies located and 385 miscellaneous.

THE LAKESIDE BRANCH ON TORONTO ISLAND.

The main building of the "Lakeside" was burned to the ground in the disastrous fire of April 22nd. Fanned by a fierce east wind, the handsome big frame building fell an easy prey to the flames. Fortunately none of the children had been removed from the parent Hospital, although everything was in readiness for the reception of the little ones.

While the main building was entirely destroyed, the dining-rooms of the Superintendent and Nurses, the kitchens, boiler-room and three pavilions were untouched, so that on Moving Day 100 children went over and more followed each month.

From June the 4th to October the 1st, 280 patients were cared for and treated. Since 1882 a grand total of 6,553 little children have had the advantages of the Island Home.

The service at the "Lakeside" was made as complete as possible; several portable sheet-metal buildings, including a dispensary, store-room, enquiry office, and night supervisor's room were erected, and the pavilions which were formerly open were closed in with glass sliding-windows and screens, one being reserved for girls, the other for the boys; and the nurses were housed in an emergency pavilion. All these buildings can be adapted for other purposes when a new administration building is erected.

CARE OF TUBERCULAR PATIENTS AT THE ISLAND.

The tubercular patients cared for last summer were 44—21 boys and 23 girls. Since 1910, 425 patients have been sent over to The Lakeside Home, and the work is under the direction of the Heather Club Chapter of the Daughters of the Empire, who maintain a graduate nurse at this branch during the summer. These children have been exposed to tubercular infection, but are not active cases. Through the courtesy of the Heather Club, the Pavilion provided for them by the trustees some years ago was used this year for Hospital patients, while the tubercular cases were cared for in a large tent on the grounds.

THE INFANT AND BABY WARD SERVICE.

In 1915 splendid work in the fight for baby life was made possible by the opening of the first floor of the new wing, on the cubicle system, for the babies. This medical flat has its own treatment and operating rooms, pathological laboratory, diet kitchen, and open-air balconies. The divisions between the cubicles and corridors are made by means of glass screens running to the ceiling, for the purpose of keeping the patients under complete observation.

During the year 1,164 babies were admitted, or a daily average of 70. Many of these cases were malnutrition and intestinal troubles. To take care of these babies, this department now requires 15 nurses, 10 nursery maids, and two nursing mothers.

SCHOOL LIFE IN THE HOSPITAL.

The Hospital School was established in 1892; during the past year 394 in-patients received instruction, a daily average of 47.

The Toronto Board of Education maintains a teacher at the Hospital and she visits the various wards each day, instructing and entertaining the children.

THE TRAINING SCHOOL FOR NURSES.

During the past year 23 nurses were graduated, making a total number of 314 graduates since the Training School was established in 1886. The work of the School for 1915 has been most gratifying, and the organization at present consists of:—superintendent, assistant-superintendent, teacher of preliminary course, night supervisor, supervisor of residence, 8 graduate nurses in various departments, instructors in massage, dietetics, pharmacy and the gymnasium; 90 pupils, including 18 probationers, 14 first year nurses, 34 second year nurses, and 24 third year nurses.

Last year 614 applications were received by the Superintendent, 136 of which were accepted, and 53 probationers entered the School.

Through the generosity of the doctors the usual lectures were given to probationers, first year, second year, and third year nurses; and we take this opportunity to express our thanks and appreciation to the medical and surgical staff.

In addition to the above course, four lectures were given weekly by the Superintendent and her Assistant; lessons weekly by the masseuse, pharmacist, resident dietitian and gymnasium instructress, and also lectures on Social Service work at Toronto University.

A WORD TO THE MUNICIPALITIES.

Many people outside of Toronto, and some perhaps in the city, are under the impression that because the City of Toronto and each municipality in Ontario which send in patients pay one dollar per head per day, as directed by the Act of the Provincial Legislature, that this amount defrays the cost of treatment of each patient.

It is, therefore, well to explain, to the people at large, and to the municipalities, that the dollar per head per day pays only part of the cost. This dollar for the city and country patient is supplemented by 20 cents per head per day by the Ontario Government, making a total of \$1.20. The cost necessary for treatment of each patient is \$2.26½ per day, or \$1.06½ short of the cost of treatment. This \$1.06½ per head per day, therefore, is the free treatment given by the Hospital, and amounts in a year to about \$65,000, which sum has to be made up by the donations of the people of Toronto and other parts of Ontario.

THE PASTEURIZING LABORATORY.

The Pasteurization Department not only pasteurizes daily the milk for the entire number of in-patients, out-patients and staff of the Hospital, but supplies milk on order of physicians of the Hospital.

Our Milk Laboratory is provided with the most modern equipment, not only for pasteurization, but for the preparation of feedings and the modification of milk for both Hospital and outside babies.

A domestic science graduate has charge of this department. She has a class of nurses daily in attendance, who receive a two weeks' course in the Laboratory during their training; and besides filling all the baby food special prescriptions are taught the dietetics of Milk and its products.

THE PATHOLOGICAL DEPARTMENT.

The Laboratory Service has expanded notably during the past year, and has been a very important factor in the successful treatment of Hospital cases.

Besides many chemical and microscopical examinations for the staff by the resident pathologist, for both in-patients and out-patients, the records for 1915 show the following: 100 surgical specimens; 3,800 blood examinations; 1,500 bacteriological examinations; 6,000 throat cultures; 3,800 urinalyses; 250 lumbar punctures; 200 autopsies; 160 typhoid tests, and 500 milk examinations, bacterial counts and fat tests.

THE DENTAL SERVICE.

In 1912 the Trustees established a Dental Clinic, and after a few months of the service, the improvement in the physical condition of the patients was much in evidence.

Besides the daily individual attention in the wards, the records show a busy year's work: 378 patients examined, 109 extractions, 244 treatments, and 187 fillings.

DEATH OF MR. JOHN FLETT.

The Trustees with deep regret announce the passing away of a valued and esteemed colleague in the person of Mr. John Flett, who for many years was a member of this Board. He was always greatly interested in the saving of child life.

NEW COTS DURING THE YEAR.

The following cots have, by the payment of \$2,000, been named in perpetuity in the Hospital in College street in 1915:—

The Ontario Hockey Association Cot, by the Ontario Hockey Association; The Margaret Cargill Cot, by Mrs. W. H. Bennett, Midland, Ont.; The Sir Aemilius Irving Cot, by Mr. L. Homfray Irving, his sisters and brothers, Toronto; The Eugene O'Keefe Cot, by bequest of the late Mr. Eugene O'Keefe, Toronto; The J. I. Carter Cot, by bequest of the late Mr. J. I. Carter, Sarnia, Ont.; The Eliza Ann Simmons Cot, by bequest of the late Mr. D. L. Simmons, Colborne, Ont.; The D. L. Simmons Cot, by bequest of the late Mr. D. L. Simmons, Colborne, Ont.; The Mrs. E. C. Whitney Cot, by Mr. E. C. Whitney, Ottawa.

The following cots, by the payment of \$100 per year, were named to be maintained annually in the Hospital in College street:—

The George and Louisa Hale Cot, by the Misses C. and H. Hale, Toronto; The Ria New Cot, by Mr. R. H. New, Toronto; The Fred and Baby Sister Cot, by Mrs. R. A. Tanner, Watford, Ont.; The Z. A. Lash Cot, by Mr. Z. A. Lash, Toronto.

The following cots, by the payment of \$500, have been named in perpetuity at The Lakeside Home, Toronto Island:—

The James Maclellan Cot, by Hon. James Maclellan, Toronto; The J. I. Carter Cot, by bequest of the late Mr. J. I. Carter, Sarnia, Ont.

The following cots, by a payment of \$25 a year, were named to be maintained annually at The Lakeside Home, Toronto Island:—

The Grace Church Sunday School Cot, Brantford, by Grace Church Sunday School, Brantford, Ont.; The Sunshine Cot, by Miss Susie P. Dickinson, Elm-vale, Ont.; The Westmoreland Methodist Sunday School Cot, by Westmoreland Methodist Sunday School, Toronto; The Hope and Grace Cot, by Miss Hope Morgan and Miss Grace Smith, Toronto; Public School Pupils of Toronto Cot No. 1, by Public School Pupils; Public School Pupils of Toronto Cot No. 2, by Public School Pupils; The Pendennis Cottage Cot, by Pendennis Cottage, Hanlan's Point, Toronto.

BEQUESTS IN THE YEAR.

The Trustees acknowledge, with thanks, bequests from the estates of:— Nancy C. Peterman, Aurora, \$97; Mrs. J. Stevenson, Holstein, \$25; Mrs. A. Grandy, Omemee, \$50; W. Warren, Montreal, \$200; J. Williams, Parry Sound, \$150; R. R. Newborn, New Toronto, \$224.18; J. E. Hughes, Newmarket, \$250; J. W. Lawrence, McKillop Township, \$25; C. Durant, Chesterville, \$50; G. E. Albertson, Oakville, \$1,653.45; Dr. W. Higinbotham, Brantford, \$100; H. Woods, Aylmer, \$75; A. Griffith, Smith's Falls, \$100; Miss M. A. Fryer, Toronto, \$50; D. Clark, Toronto, \$500; H. James, Brantford, \$250; R. Ash, Markham, \$300; J. Edwards, Seneca Township, \$100; S. Gillbard, Cobourg, \$1,711.50; Miss M. A. McClelland, Toronto, \$25; G. Hendry, Aurora, \$100; Martha Breen, Guelph, \$63.06; T. Bell, Toronto, \$100; Miss E. F. Hine, Toronto, \$169.85.

FINANCES OF THE HOSPITAL.

The financial statement of the Hospital, on another page of this report, shows the receipts and expenditure for the official year ending 30th Sept., 1915, when annual statements from hospitals are sent to the Government.

Last year our receipts on maintenance account were \$150,794.42. The expenditure was \$143,444.10, showing a surplus of \$7,350.32, which reduced the bank overdraft on maintenance account from \$18,892.57 to \$11,535.18, at which it stands to-day. The increase in receipts was in part due to the fact that a special extra appeal was made to friends who had not given at the Xmas time—and their response was generous.

Notwithstanding rigid economy, expenses increase. To-day we have an increase of 586 in-patients over last year, which involves additional nurses and domestic help, and extra expenditure for surgical and medical supplies.

This expenditure is justified by the fact that we have reduced our per capita from \$2.34 per head per day of last year to \$2.26½ this year.

As the Hospital stands to-day, it has an indebtedness on maintenance account of \$11,535, and on building account of \$107,178. These are heavy items, for they involved the payment of interest of about \$7,000 last year.

The assets of the Hospital in land, buildings and equipment amount to \$1,062,598. The Hospital has accommodation for 250 patients and its plant is perfect.

"LEST WE FORGET."

In these days, at the call of the Empire, extraordinary demands are made on the purses of the people. The response has been magnificent. The hard coin has poured into the laps of the organizations collecting funds as if it were water rushing over the cliff of our mighty Niagara.

From the man of wealth in his counting-room to the most humble worker who earns a weekly wage, all are doing their bit to give comfort

to our brave soldiers, to aid our wounded, and to care for the dependents, the wives and mothers who in the homeland keep watch and ward over the sons and daughters of the dear ones who are fighting for the Empire "somewhere in France."

And yet there is another battle—one that is never ending—one that will continue while the world lasts, for it is the fight between the armies of life and death, to save the child life, the sick little ones, sons and daughters not only of our soldier men, but of the fathers and mothers still in this homeland province.

So we appeal to the generous people of Ontario not to forget those so near and dear to us, who lie in the beds and cots of the great charity that cares for the sick children of Ontario.

Will the people at large, as of old, respond to our call? Will they answer our appeal? Will they remember that every year is a war year for the Hospital, every day a day of battle, and that every minute the Hospital needs money, not for its own sake but for the children's sake.

The Hospital has waged its war for forty years. The people of Toronto and Ontario have been its friend, and this year of all years it requires help. Surely you will give it to a charity that cares for not only the poor sick children of Toronto, but for every sick and suffering child in the Province of Ontario, for only as your money reaches the Hospital can the Hospital's mercy reach the children. Open your purse. Every dollar is a help.

THIS IS OUR APPEAL—WILL YOU HELP US ?

* Just remember that:

We are fighting a great fight in trying to save the child life of Ontario.

Must children die among the wounded, and on the battlefield of life perish, for lack of the help and healing the Hospital can bring to these children with the power of your money?

The Hospital is beating back disease and death, the enemies that assail the lives of little children as the British Empire is beating back Germany, Austria and Turkey, the enemies that assail the life of liberty.

Every good dollar taken from your bank is a good deed written up in your eternal credit account.

Boys the Hospital saved from death in the days of their infancy and childhood are to-day grown men fighting for liberty in the ranks of Canada's army.

Cash is the current that feeds the lamps of the Hospital's mercy. Will you let that current be shut off and the lamps of mercy be put out?

Do not stop to change the bill that can help change the shadow of death into the sunshine of life for suffering little children.

War would bring its woes nearer to the homes of Canada if the demands of war year are to be your reason for refusing the money—your money—that enables the Hospital to enter these homes with comfort for many a grieving mother and health for many a suffering child.

Your money can unlimber the guns of the Hospital's mercy and fill the munition wagons of the Hospital with help for little children.

Money makes munitions of mercy—put your money to work in the Hospital's munition factory, where the physicians, the surgeons, the nurses, are being armed for their warfare on disease and death.

OUR ORTHOPEDIC WORK

IN TWENTY-FIVE YEARS THERE HAVE BEEN TWELVE HUNDRED CASES OF CLUB FEET, BOW-LEGS AND KNOCK KNEES TREATED, AND ELEVEN HUNDRED HAVE BEEN DISCHARGED WITH PERFECT CORRECTION.

ORTHOPEDIC SHOP

In 1915, of the 2,838 in-patients, 264 were treated for deformities. Of the 40,567 out-patients, 1,501 were orthopedic cases. At lathe in front, foreman is turning out pin for a Thomas knee splint.

SOME OF THE APPLIANCES

Last year's output—Spinal and ankle braces; hip, club feet, bow-leg and knock-knee splints; frames for supporting patients in spinal and hip cases; and leather, plaster and aluminum jackets.

JUST LOOK AT THESE PHOTOS FROM LIFE

BEFORE

BEFORE

BEFORE

BEFORE

AFTER

AFTER

AFTER

AFTER

LAST YEAR'S IN-PATIENT RECORD.

10 bow-legs, 57 club feet, 2 knock-knees, 21 Pott's disease of the spine, 10 lateral curvature of the spine, 17 dislocations of hip, 42 tubercular disease of knee, hip, ankle, wrist and elbow, 76 infantile paralysis, 8 wry neck, and 21 miscellaneous deformities.

Think what the Hospital means to crippled children—they enter suffering from cruel disease which has twisted their bodies and limbs sometimes almost out of human shape—and go home cured—disease gone—straightened limbs and erect backs—happy normal boys and girls, able to take their part in life and games of healthy childhood.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

AUDITORS' REPORT, HOSPITAL FOR SICK CHILDREN.

To the Chairman of the Trust:—Dear Sir.—We beg to certify that the Receipts and Disbursements of the Hospital for Sick Children have been carefully audited with the vouchers and bank account throughout the year ending Sept. 30th, 1915, and the accompanying statements of Income and Expenditure and Assets and Liabilities, bearing our signature, are a true and correct account of the affairs of the Hospital to that date. The books and work of the office are well looked after, and all desired information has been freely given.

Respectfully submitted,

Toronto, Oct. 15, 1915.

A. C. NEFF & CO., Chartered Accountants.

BOYS THE HOSPITAL SAVED FROM DEATH IN THE DAYS OF THEIR INFANCY AND CHILDHOOD, ARE TO-DAY GROWN MEN FIGHTING FOR LIBERTY IN THE RANKS OF CANADA'S ARMY

IS THIS NOT A GRAND SIGHT ?

SIXTY-ONE NURSES LEAVING THE RESIDENCE AT 7 A.M. TO ENTER ON THE DUTIES OF THE DAY

THIS PICTURE SPEAKS FOR ITSELF—BETTER THAN WORDS

There are at present 90 nurses in training: 18 probationers, 14 first year, 34 second year, and 24 third year nurses. Last year 23 nurses graduated, making a total of 314 since establishment of School in 1886.

A DEMONSTRATION IN DIET KITCHEN

At end of 6 weeks' course each nurse has to prepare a tray for breakfast, luncheon or dinner. Earl Grey declared the lunch at our Residence was better than at the Savoy.

PREPARING MODIFIED MILK PRESCRIPTIONS

Class of nurses are trained 2 weeks in Milk Laboratory making baby feedings. An average of 100 daily for in and outside babies.

MONEY MAKES MUNITIONS OF MERCY—PUT YOUR MONEY TO WORK IN THE HOSPITAL'S MUNITION FACTORY — WHERE THE PHYSICIANS, THE SURGEONS, AND THE NURSES YOU SEE ON THIS PAGE, ARE BEING ARMED FOR THEIR WARFARE ON DISEASE AND DEATH

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

Undiagnosed	5	1	6	Hypertrophy of turbinates	16	16	16
Diseases of Joints—				Foreign body in oesophagus	5	5	5
Inflammation of ankle	1	1	1	Tonsillitis	2	2	2
Dislocation of elbow	3	3	3	Retro-pharyngeal abscess	1	1	1
Inflammation of hip joint	4	4	4	Weakness following removal of			
Dislocation from birth	17	17	17	tonsils	55	55	55
Tuberculosis of hip	30	30	30	Enlarged tonsils and adenoids	102	102	102
Ankylosis of hip	2	2	2	Infected frontal sinus	2	2	2
Hysterical hip joint	1	1	1	Inflammation of glands of neck	2	2	2
Tuberculosis of knee	10	10	10				
Inflammation of knee	2	2	2				

Recovered, 1,027; died, 49; total, 1,076.

569 were discharged cured, 243 improved, 29 unimproved, 49 died, and the balance remained in Hospital. Surgical cases, 405; medical cases, 1,741; special, 485; 207 remained in Hospital. Total, 2,838.

B. HANNAH, M.B. } Registrars.
R. A. JONES, M.B. }

NOTE.—A large percentage of the surgical cases discharged from Hospital as improved return to the Out-Patient Department for treatment and are ultimately cured.

SURGICAL OPERATIONS.

Table Showing Nature of Surgical Operations from Oct. 1st, 1914, to Sept. 30th, 1915.

Operations.	Total	Operations.	Total
Removal of glands in the neck	4	Fracture of the elbow	15
Amputation of fingers	1	Fracture of femur	37
Amputation of toe	1	Open reduction	2
Excision of knee joint	5	Dislocation of femur	1
Fixation of joint	4	Congenital dislocation of hip	7
Circumcision	4	Fracture of the radius and ulna	13
Decompression (trephining)	2	Fracture of the radius and ulna (open reduction)	3
Dilatation of urethra	1	Fracture of tibia and fibula	18
Removal of the astralagus	12	Fracture of tibia and fibula (open red'n)	2
Meningocele (removal of)	4	Bone graft of tibia (ununited fracture)	2
Thyroglossal cyst (removal)	1	Removal of foreign body from foot	2
Incision of fascia	5	Repair of cleft palate	2
Incision of abscess	4	Repair of hare-lip	9
Incision of tubercular abscess	3	Hare-lip and cleft palate	4
Imperforate anus	3	Operation for faecal fistula	2
Appendicitis	47	Resection of rib	16
Telescoping of bowel	15	Siphon drainage for pus in the chest	1
Tubercular peritonitis	1	Division of tendons	13
Removal of ovary	1	Tendon fixation	35
Removal of kidney	1	Transplantation of tendons	2
Division of bone to correct deformity	10	Tendon lengthening	12
Albee bone-graft for Pott's disease	4	Skin grafting	1
Operation for torticollis	5	Blood transfusion	3
Plastic operation for contracture follow- ing burn	6	Foreign body in neck (removal)	1
Recto-vaginal fistula	1	Removal of foreign body from bronchus	2
Recto-polypos	1	Removal of thyroid cyst	1
Plastic operation on ulnar nerve	1	Removal of tonsils and adenoids	101
Inguinal hernia	78	Removal foreign body from oesophagus	3
Umbilical hernia	3	Excision of turbinates	5
Hernia of Trelitz	1	Operation for mastoid	43
Hydrocele	1	Retro-pharyngeal abscess	1
Fracture of axis	1	Sub-mucous resection of nasal septum	39
Dislocation of the elbow	3		
Fracture of the elbow (open reduction)	2	Total	635

SURGICAL OPERATIONS IN OUT-PATIENT DEPARTMENT.

Removal of tonsils and adenoids	1696	Manipulation—club feet, arms	18
Removal of foreign body from foot, arm	6	Incising tendons (tenotomy, club feet)	25
Removal of foreign body from throat	1	Circumcisions	127
Removal of foreign body from nose	3	Curretted bone	5
Removal of aural polypus	1	Curretted tumor	2
Incising abscesses	110	Mastoid	2
Incising infected arm, hand	7	Tracheotomy	1
Incising infected foot, knee	8	Incision of lachrymal duct	10
Electrolysis, naevus, nose, lip	12	Examination by X-ray	1
Excision of cyst	6		
Examination of nose, throat, ear, eye	8	Total Out-Patients	2136
Paracentesis	18	Total In-Patients	635
Reduction of fracture of forearm	22		
Reduction of fracture of leg, thigh	10	Total Operations for Year	2771
Wounds sutured	37

B. HANNAH, M.B.)
R. A. JONES, M.B.) Registrars.

YOU CANNOT GO INTO THE TRENCHES OF THE HOSPITAL'S DAILY, HOURLY STRUGGLE WITH DISEASE AND DEATH AND FIGHT AS A PHYSICIAN, A SURGEON AND A NURSE IN THE BATTLE FOR THE LIVES OF LITTLE CHILDREN, BUT YOU CAN LET YOUR MONEY GO.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

FOR THE SAKE OF YOUR OWN MOTHER, LET NO MOTHER CRY
TO YOU IN VAIN FOR THE HELP THE HOSPITAL CAN OFFER
HER CHILD WITH THE AID OF YOUR MONEY

THE PASTEURIZATION DEPARTMENT.

HOSPITAL MILK SAFEGUARDED.

PASTEURIZING MACHINES

See the separators, bottle filling machines, sterilizers and ice colls. Milk is put into oven, brought to 145 deg., and kept in pasteurizers 30 minutes.

WONDERFUL RESULTS.

Pasteurized milk and good feedings work wonders. The three above are examples—a baby girl, 7 months, and two boys 6 and 7½ months old.

THE GYMNASIUM

Treatment being given to correct spinal curvature. All modern appliances. In 1915, a total of 2,440 corrective treatments given.

MASSAGE

A case of Wry Neck. Little boy's father at front with artillery. Last year 107 in and 93 out-patients, total of 3,778 treatments.

MONEY MAKES THE HOSPITAL GO ON ITS MISSION OF MERCY
TO EVERY AILING CHILD IN THE PROVINCE.

REMEMBER THE SICK CHILDREN IN YOUR WILL.

Look at other pages of this Report and read the names of those who have memorial cots. \$2,000 names and maintains a cot in perpetuity. If you cannot found a cot, leave something—if only a hundred dollars—to help to nurse sick little ones. The form to use is:—"I Give, Devise and Bequeath to The Hospital for Sick Children, Toronto," the sum of \$.....

The incorporated name is "The Hospital for Sick Children, Toronto."

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

EVERY YEAR IN THE CALENDAR OF THE HOSPITAL'S PAST WAS, AND EVERY YEAR IN THE ALMANAC OF THE HOSPITAL'S FUTURE WILL BE, A WAR YEAR

THE OUT-PATIENT DEPARTMENT AND FREE DISPENSARY.

ENTRANCE, ELIZABETH ST.

About forty baby carriages may be seen daily at the out-patient entrance.

THE WAITING ROOM

Last year 40,567 visits, an increase over the previous year of 8,597.

WHOOPIING-COUGH CLINIC

First clinic for this disease in America, opened July 20th. Each patient wears red ribbon with word "Whooping-Cough" printed on it as danger signal.

THE DISPENSARY

In 1915 for in and out-patients 29,955 prescriptions filled, and 11,980 ward requisitions distributed. The free dispensary is like a fair from 9 a.m. till 3 p.m.

WON'T YOU HELP THE HOSPITAL HELP THE CHILDREN?

MONEY--YOUR MONEY--GIVEN TO THE
HOSPITAL, MAY BE THE EAR THAT HEARS THE CRY OF
THE POOR TORTURED BABIES OR CRIPPLED BOYS AND
GIRLS--THE HAND THAT HELPS THESE SUFFERING LITTLE
ONES BACK TO LIFE AND HEALTH AND JOY.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

Total	40,567

YOU CAN GIVE A SPARE DOLLAR AND SAVE A PRECIOUS LIFE
FROM DEFORMITY—GIVE IT AND SOMEBODY'S DARLING WILL
GROW UP TO BLESS YOU FOR YOUR GOODNESS

AMONG THE MARVELS OF SURGERY.

From 1880-1915, 379 Hare-lip Cases—295 Perfect Corrections.

BEFORE

BEFORE

BEFORE

AFTER

AFTER

AFTER

THREE EXAMPLES OUT OF 23 CASES IN 1915.

Two years ago, on three different occasions, three mothers were notified that their children with hare-lips had been corrected. The mothers came to the Hospital and, looking at the little ones, declared that the babies shown were not theirs, that they could not recognize them. The fact was that the correction had so changed the faces of the little tots that it was not a surprise that the mothers were in doubt. Finally, after a very close look at the infants, they took away the babies, and one mother left the corridor, saying "God bless the Hospital."

DENTAL DEPARTMENT

A SEPTIC JAW

Received daily treatment for two months. Last year 378 patients were examined.

PATHOLOGICAL DEPARTMENT

HOUSE STAFF'S LABORATORY

Examining cultures from throats for diphtheria. Assistant preparing smears to be examined.

(YOUR DOLLAR MAY BE A DOOR OF HOPE TO SOMEBODY'S CHILD)

THE MONEY OF YOUR MOTHER'S SON CAN BE THE FRIEND IN
NEED TO SOME CHILD'S MOTHER, TO SOME MOTHER'S CHILD

WONDERFUL WORK OF THE X-RAY

A FRACTURED LEG

Operator is going to take a skiagraph before the surgeon sets the fracture. The case was that of a small boy run over by an auto—first aid was rendered outside—after which he was sent to Hospital.

STEADY GROWTH IN DEPARTMENT.

3,128 Skiagraphs, 180 X-Ray Treatments, and 650 Fluoroscopic Exams.

IN-PATIENTS AND OUT-PATIENTS RADIOGRAPHED.

532 Dislocations and Fractures; 134 Hip Cases; 266 Bone Diseases, 720 Chest and Lung Conditions, 90 Foreign Bodies Located, and 385 Miscellaneous Cases.

COIN IN THROAT

Little girl would keep money in her mouth. Swallowed a copper—X-ray located it.

FRACTURED THIGH

Boy of 12 run over by heavy lorry—steel plate put on fractured bone—perfect recovery.

NAIL IN LUNG

X-ray revealed cause of illness. Tedious and delicate operation performed.

BULLET IN FOOT

Shot while playing with rifle—bullet carried eyelet of boot right into wound.

NEEDLE IN NECK

Boy carrying a bone needle—ran—fell—needle went through neck into bone of spine.

JACK IN THROAT

Diagnosed as broncho-pneumonia case, but X-ray located jack as cause of trouble.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

RALLY ROUND THE FLAG OF THE HOSPITAL'S
MERCY—THE COLORS UNDER WHICH THE LIMBS
OF THE CRIPPLED LITTLE ONES ARE STRAIGHTENED,
THE SUFFERING CHILDREN SAVED FROM PAIN AND
THE DYING CHILD FROM DEATH.

You Cannot Spare Time to Visit the Suffering, But
You Can Spare Money, and We Will
Gladly Do the Work

TWO PAIRS OF BOW-LEGS

Willie and Mike—both three years old—one admitted October 4th, other October 5th—are in first plasters—Willie's father has gone to the war.

THE HOSPITAL'S NEED IS THE CHILDREN'S NEED. THAT NEED IS GREATER THAN EVER. VOLUNTARY CONTRIBUTIONS ARE THE AMMUNITION TRAINS WHICH HELP THE HOSPITAL TO HOLD THE FIRING LINE. SHALL THE FIRE SLACKEN? THINK WHAT IT MEANS TO THE LITTLE CHILDREN—AND "DO YOUR BIT" FOR THEM.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Sec.-Treas., College Street, Toronto.

SPECIAL TO READERS—Please note, this report is perforated, so that leaves can be separated and distributed to Public and Sabbath School Children.
